

# BEST HEALTHCARE CHATBOTS & THEIR BENEFITS

Some of the best healthcare chatbots:

## IZZY

Izzy takes note of women's menstrual health and keeps track if any further sexual issues arise. Also, it reminds the user of the necessary pills to consume every day.

## SAFEDRUGBOT

This healthcare chatbot is a messaging service that assists healthcare professionals. The chatbots help the users to know the right drug and the use of a drug, especially for breastfeeding women.

## BABYLON HEALTH

The chatbots help the user to book an appointment or to have a video conferencing appointment with the real doctor.

## FLORENCE

This healthcare chatbot works on Facebook Messenger, Skype, and KIK Messenger. The chatbot helps the users in getting reminders for taking their bills on time, which is a useful feature for old age patients.
